ACOUSYSTEM KSA

— Your Partner in Acoustic Excellence —

ACOUSTIC SOLUTIONS & APPLICATIONS

ACOUSTIC SOLUTIONS & APPLICATIONS

1. FLOATING SWIMMING POOL

- Pools above occupied spaces
- Compensation Tanks

2. ACOUSTIC LOUVERS

- Mechanical Rooms
- Technical Rooms
- Chillers
- Cooling Towers

3. ACOUSTIC SCREEN

- Outdoor Mechanical Equipment
- Chillers
- Cooling Towers

4. FLOATING FLOORS

- Mechanical Rooms
- Auditoriums
- Recording Studios
- Gyms
- Dancing Studios
- Bowling Arenas

5. ACOUSTIC UNDERLAYER

- Typical Slabs of Residential
- Commercial buildings

6. ACOUSTIC BAFFLES

- Call Centers
- Stadiums
- Large Halls / Auditoriums
- Open Plan Offices

7. ACOUSTIC ENCLOSURE

- Chillers
- Cooling Towers
- Outdoor HVAC Equipment

8. ACOUSTIC BOX IN THE BOX

- Mechanical Rooms
- Auditoriums
- Recording Studios
- Theatres
- Cinemas
- Discotheques - Night Clubs

9. FLOATING PADS

- MEP Equipment

10. ACOUSTIC DOORS

- Mechanical Rooms
- Recording Studios
- Generator Rooms

11. NOISE BARRIERS

- Highways
- Metro lanes
- Construction Sites

12. ABSORBENT PANELS

- Technical Rooms
- Generators Rooms

13. SOUND ATTENUATORS

- AHU
- Fans
- Chillers
- Generators Rooms

14. ANTI-VIBRATION SYSTEM

- Mechanical Equipment
- Ducting & Piping
- Generators

SERVICES

Structure Borne - Vibration Control

Reducing structure-borne noise and vibrations through elastic decoupling systems for buildings and equipment (e.g., AHUs, chillers, pumps).

Building Acoustics (Sound Insulation)

Elastic decoupling of floors, walls, and ceilings to reduce noise transmission.

Environmental Noise Control

Solutions for noise pollution reduction in residential, commercial, and industrial spaces.

Electro-mechanical acoustics

Noise control for HVAC systems, mechanical rooms, and power plants using attenuators, louvers, and barriers.

Acoustic Modeling

3D simulations and sound system optimization to design tailored acoustic environments.

Room Acoustics

Enhancing sound quality in indoor spaces such as workshops, theaters, and call centers.

Acoustic Measurements & Testing

Comprehensive testing & monitoring for design, construction, & compliance, including reverberation time, environmental noise levels, & sound isolation ratings.
